Technical Datasheet

FlexiCare™ is a smart and durable rubber flooring solution made from recycled tire rubber and colored EPDM granules. It offers maximum comfort, slip resistance, and shock absorption, making it ideal for fitness areas, home gyms, garages, and high-traffic zones.

Material Composition

Fine-grained recycled tire rubber with 15% colored EPDM granules, bonded using high-strength polyurethane elastomer. Alternative compositions may include recycled PU-foam and latex granules for added flexibility.
